

## Introduction and Program Overview

Beyond Boardrooms provides employers throughout Canada and the US with an engaging and interactive points-based employee recognition and rewards program called My Rewards Unlimited. Beyond Boardrooms is a sister company to PerformaLogics Inc., a market research and performance measurement company that works Nationally and Internationally with some of North America's most respected companies and organizations.

My Rewards Unlimited is designed to provide your organization with unique hiring advantages, reduce staff turnover and **improve employee engagement, performance and loyalty** through recognition and reward. Our focus is on recognition, appreciation, choice and value delivered through customized programs that can be managed **administration-free** from the clients end to businesses of all sizes.

The flexibility of our program allows our clients to use it as their sole source of performance measurement and reward or to integrate it into existing programs, either way providing a cost-effective means of driving employee loyalty and performance. Recognition points are given at your discretion and can be awarded for a variety of reasons such as peer to peer recognition, tenure, sales incentives, internal competitions, training achievements or recognition of exemplary behaviour to name a few.

Rewards options give your employees **the ability to choose** their own reward and appeal to all ages, income, gender and life interests. They range from local attraction passes, electronics, house wares, sporting goods, gift certificates for numerous retailers and restaurants, jewelry, executive gifts, flights, travel and more.

## Program Pricing

You'll find our prices to be amongst the most competitive in the industry. The value of the program is designed to exceed any investment made, through improved employee loyalty and performance. Because you pay only for what you use, your program will work within your own predetermined budget. Essentially, **you decide what your program will cost**. To ensure that you control the cost, **there are no contracts, no monthly fees, no minimum purchases and no need to purchase costly software**.
